& AGRI IMPLEMENTS**

SHIVAGRICO IMPLEMENTS LTD.

Shivagrico Implements Ltd. (SIL) is one of the leading manufacturers and Exporters of Agricultural Implements / Hand tools since last three decades, and got recognized as a Public Limited Company in 1992.

We have a wide product range of about 150 products such as Angles, Flats, Rounds, Polygons, Squares and Agricultural Implements & Hand tools such as Pickaxes, Pick & Cutter mattocks, Crowbars, Hoes, Hammers, Mauls etc.

At the helm of SIL is Mr. Vimalchand Jain, who is well known for his sound business acumen and tons of experience in the multifaceted field of the export business for the last 40 years. He is ably supported by a strong team of business leaders.

Our company is headquartered at Mumbai and we have a state-of-the-art manufacturing facility at Falna in Rajasthan. We have been exporting our products under the "CHETAK" and "LION" brand labels.

We have serviced clients from various countries like Africa, U.K., Mozambique, Curacao, Ghana and number of Gulf countries such as Dubai, Jeddah, Riyadh and Asian countries like Sri Lanka etc.

We also supplied our products to various government agencies including World Bank, Defence, Railways, Public Works Department and Indian Oil Corporation Ltd (Kandla Bhatinda pipe line project)

We have been recognised for our quality of products and services offered and have also been conferred with the Export Excellence Award for five consecutive years.

Our agricultural implements are manufactured using state-of-the-art infrastructure and suited to the clients' specifications. We assure quality output consistently adhering to strict timelines; we also have an in-house laboratory for testing the chemical composition of the products.

ROLLED PRODUCTS

The rolling division has a capacity of 36000 metric tonnes per annum and manufactures Angles, Octagonal / Hexagonal Bars, Rectangles bars, Square Bars as well as flats in special sections which are widely used for various tools and also in Automobile industry.

DROP FORGED PRODUCTS

The Company utilizes two hammers; with a capacity of one and two tons respectively, to manufacture special kinds of drop-forged, high value products.

Shivagrico Implements manufactures about 800,000 implements annually for Tata Steel Limited, Jamshedpur at the forging facility.

From Our Chairman`s Desk

Over the years, ShivAgrico Implements has emerged as a leading manufacturer and exporter of Agricultural implements and hand tools. This has been possible due to the continuing and diligent efforts of all our employees and other stakeholders.

We have consciously expanded our product portfolio through best-in-class technological advances and increased our footprint world-wide. We have executed a number of turnkey projects that include setting up of similar manufacturing facilities as ours in several countries including Tanzania, Kenya and have also exported to African countries.

We have received numerous awards including the export excellence award for five consecutive years.

As a responsible corporate citizen we believe in giving back to society through sustained initiatives.

Vision & Mission

Shivagrigo Implements Limited aims to establish itself as a strategic supplier of Re-rolled and Forged products, provide customer delight by consistently delivering products that are of quality second to none. We strive to become one of the most diversified plants in the industry and generate wealth to serve its shareholders, the surrounding communities and the nation. The company will strive to further expand its product base by developing new products with continuous improvements in their existing product range with higher efficiency.

Quality Statement

We are committed to comply with the highest standards of quality and achieve continual improvement in our operations. The company strives to achieve its quality objectives through annual business plans, and review the quality policy periodically to ensure its continuing suitability to company operations.

Social Responsibility

At SIL, social responsibility has been the cornerstone of success right from inception. We are committed to enriching the lives of the community and preserving the environment. We have set up a rain water harvesting plant, recycling / waste water management facility and undertaken a multi-year tree plantation drive near our manufacturing facility. We have also made sustained contributions for the general betterment of the infrastructure like roads, drainage, educational institutions etc.

HAND TOOLS & IMPLEMENTS

We have four separate forging plants to manufacture Hand tools such as picks and mattocks having four roll forging presses and 20 mechanical presses. We have pneumatic hammers, heavy duty mechanical presses supported by Electric heating and coal fired furnaces.
